

Proehlific Park Summer Blast's Covid-19 Responses to CDC/NCDHHS Guidelines

Will the coaches and staff have training in regard to all guidelines and protocols? Yes, prior to the beginning of Summer Blast, all staff, coaches, and CITs will attend a mandatory training to review the guidelines, policies, and protocols. They will be trained in monitoring signs and symptoms as well as the cleaning protocols that will be put in place. We will have daily meetings prior to campers arriving in the morning and prior to the "shift change" in the afternoon.

How will we promote healthy hygiene practices? Each camper will wash their hands upon arrival, before and after each snack and lunch, as well as after each activity, coaches will monitor them. We will also make sure that they will use hand sanitizer before leaving to go home. We will have hand sanitizer stations set up at the entrance of the building. We will have a bottle of hand sanitizer available to each Summer Blast coach. We will also encourage the campers to be mindful of touching their face, eyes, and mouth. We will also encourage them to sneeze or cough in their shirt or in the crook of their arm

How will we handle cleaning and disinfection? Coaches will be responsible for cleaning all equipment, tables, bleachers etc. after their group has used these items. The areas of the park where the campers are will be wiped down on a regular basis during the time that Summer Blast will be going on. Once the camp is over each coach will be diligent in their cleaning duties ex: when cleaning the bathrooms, the floors will be mopped, and the door handles will be wiped down.

What measures will we be taking for encouraging social distancing and spacing? We will encourage social distancing when feasible. We will have the same campers in the same groups with the same coaches daily. We will not allow campers to switch or move groups, we will not allow campers or coaches to go and visit or move around to see what the other groups are doing. We will use a floater on a limited basis. The walkies will be our friend. Our walkies will be on and at a level where we can hear it. We will have games and sports that are fun and creative while keeping social distancing and spacing in mind. Any equipment that is used will be cleaned after the group has finished using it. We will limit the amount of equipment and supplies that we use for each group. We will use the cubbies for campers instead of bins. Each cubby will have a divider in it for campers to use. We will have siblings use the same cubby. The cubbies will be cleaned at the end of the day.

How will lunch and snack time be handled? Each group will be assigned an area to eat in. This will be where each group will be during the duration of camp. Each camper will be responsible for their lunch and water bottle, and for cleaning and throwing their trash away. There will be 2 groups upstairs separated by a table. 1 group will be in the lounge and 1 group in the Panther's Den. The coaches will clean accordingly in reference to the protocols that have been set in place.

What will arrival time and pick-up time look like?

Arrival for camp: When parents arrive in the morning, they will wait in a car line for drop-off. We will have one designated coach to check in each child. Each child will be prescreened, temperature will be taken. For the safety of all coaches and campers we will only allow campers to be dropped off from 7:30 am to 9:30 am. If a camper has an appointment or will be after the 9:30 am check-in time, they must give a 24-hour notice and call the front desk when the camper arrives. The designated coach will screen the camper and take in the building. We will also designate a coach to walk the campers to their groups.

Dismissal from Camp: Pick-up times for each camper will be from 4:30pm-6:00pm. We will designate one coach for dismissal. The coach will be outside, checking the parents' ID's and checking the campers out, they will then walkie for the campers. One designated coach will then walk the campers to the front to go home. If a camper has to be picked up earlier than 4:30 pm the parent must give a 24-hour notice to the Director, and the camper will have to remain with the parent for the remainder of the day.

How will we monitor campers and staff? We will pre-screen each camper and coach prior to camp. If a camper begins to run a fever of 99.5 or begins to show any type of symptoms during the course of the day, they will remain in their group away from the other campers, given a face mask to wear and the parents will be called. Upon arrival the parent will call the front desk and the Director will walk to child out to the parent. They will not be allowed to return unless they have been fever-free and symptom free for 48 hours. They will be pre-screened when they return to camp. Should a coach become symptomatic they will leave the park immediately and not be allowed to return for 48 hours fever free and symptom free. The room that they were in will be cleaned immediately. All campers and staff will be monitored throughout the day by the Director, Assistant Director, as well as the coaches. ***If a child or coach is sick, they are strongly encouraged to stay home and not come to the park until such time as symptoms have subsided and they are fever free and symptom free for 48 hours. If a camper or coach has been in contact with anyone that has tested positive for Covid-19 they will not be allowed in the camp for 14 days.***

Will there be a system in place in regards to consulting with the Health Department and monitoring state and local cases in the county: Yes, the Youth Director as well as the Park Director, Assistant Park Director, and owner will monitor the cases in the county. They will also stay informed of any changes in regard to guidelines and protocols set forth by State and County officials. Should there be a case in the park, the Youth Director will inform the Park Director, Assistant Park Director, and owner. We will then inform our local health department and parents.
